

valves in forged and cast materials in one stop.

High Quality Materials

We source quality materials only from reliable suppliers who are qualified by international quality standards.

Technical Support from Experts

When technical guidance is required, we can offer technical support from our experts who have high experience in Oil & Gas

Time & Cost saving
With supply agreements
with most Italian Oil
& Petrochemical companies covering broad range of valves, we are able to help customers on time and cost savings.

Customers & Approval Certifications:

AkerSolutions

Valve, Pipe and Fitting Specialist

Tecnovidue is a well-known trading company for valves, pipes and fittings for Oil, Petrochemical, Chemical and Power

Our reliability is confirmed by various approvals and certifications from customers, making Tecnovidue as one of the most important suppliers for engineering companies in energy and chemical

Complete Product Range in one stop

Tecnovidue offers complete range of gate,

Tecnovidue, a qualified supplier of: Valves

Ball Valves:
Floating and Trunnion
Side Entry, Top Entry,
Fully Welded.
From 1/2" to 48".
Rating ANSI 150
to 2500 LBS.

Gate, Globe and Check Valves: Bolted Bonnet, Pressure

Seal Bonnet. From 1/2" to 48". Rating ANSI 150 to 2500 LBS.

Plug Valves: Teflon Sleeved,

Lubricated, Metal Seated, Teflon Lined, etc. From 1/2" to 24". Rating ANSI 150 to 3000 LBS.

Subsea Valves:

Compact.

Available upon request.

Applicable code:

ASME, ANSI, BS, API.

Bore: Full Bore,

Reduced Bore, Venturi. Ends Connection:
Raised Face, Ring Joint,
Butt Welding, Hub,

Construction:

upon request.

One Piece Body, Metal to Metal Seats. Materials: Forging in Carbon Steel, Stainless Steel, Duplex/Super Duplex Steel, Special Alloys, etc...
Materials:

Cast materials available

Special Feature: Available upon request.

MR0175 Latest Issue.

Pipes

Tecnovidue can supply steel tubulars, pipes and piles fron plates and seamless pipe primarily for the offshore and onshore Oil & Gas industry and other engineering projects.

We supply steel tubolars line pipes and process pipe for thickness up to100 mm. (4") and diameters ranging from 1/2" to 120".

Fittings

Tecnovidue can supply We offer all products butt-welded fittings including elbows, tees, concentric & eccentric reducers, caps, crosses and laterals in diameters of up to 120" for the Oil & Gas industry, both onshore and offshore.

in materials ranging from commodity WPB and low temperature WPL6, to high yield grades (up to WPHY - 100), low & high alloys such as WP5, WP11, WP 22, WP91, Alloy 276, Alloy 400, Alloy 625, Alloy 825

as well as stainless steel grades.
We also specialize in clad materials of all grades.
Our current range includes all grades of fittings up to 102" as well as 3D elbows, crosses, headers transition pups, and prefabricated pipeline components.
